3 injured in local collisions

OPP report \$7700 damages

MINDEN — OPP investigated four collisions this last week that resulted in three minor injuries with one charge laid and more than \$7700 in damages set.

Early last Friday afternoon a Haliburton man suffered minor injuries when his log truck rolled over into the ditch.

Roger Bain 24, was southbound on the Harburn Road about 4:30 pm when the truck full of logs went into the west ditch where it rolled onto its side. Police report damage at \$1500 to the truck. PC Potter

Gordon McWalters 43, of Haliburton, suffered minor injuries when the 1975 pickup he was driving ended up in a creek in Dudley Township on Saturday afternoon.

McWalters was southbound on the Trappers Trail when the truck entered the east ditch coming to rest in the creek. Damage has been set at \$2800. PC Smith

A Peterborough man saw his 1978 car damaged for \$1500 when it entered a ditch on a curve. Gary J. Foster 23, was westbound on Newcastle Street in the Village of Minden, when the car entered the north ditch while rounding a curve. PC Eveligh.

Terry Traviss 22, of Tory Hill suffered minor injuries on Saturday morning around 1:00 am when the 1973 car he was driving struck a parked car. Traviss was westbound on the Essonville Line, when he lost control of his car and struck the rear of a parked car. Police report that Traviss has been charged with failing to report a collision forthwith. The Traviss car suffered \$900 damage in the mishap, while the unidentified parked car was reported to have sustained \$1000 in damages. PC Legge.

Exploration permit granted to Rare Earth group

Chief Public Information officer, Hugh Spence of the Atomic Energy Control Board in Ottawa, indicated in a recent press release that an underground exploration permit has been granted to Rare Earth Resources Limited for explorations in the eastern township of Haliburton County.

The permit will be in effect for one year commencing Feb. 1st, 1980 and expiring January 31st, 1981. It will permit the company to reopen mines, Halo 1, Halo 2, Rare Earth 1, and Rare Earth 2 as a single facility to further explore the ore residues and to obtain sufficient ore samples for metallurgical testing from the above mines.

If their exploration proves satisfactory, a new permit may be issued and if continued, a mine operating license will be required.

If and when the mines are in operation, the uranium ore may be taken to the Madawaska Mines site for milling. World price of uranium is now \$40 per pound.

Small business opportunity from office of John Eakins

I would be appreciative to our news media for any attention they might be able to give to the following: Individuals and Organizations in the village of Bethany have contacted me on numerous occasions regarding the great need for restaurant facilities in their village. The Bethany and Manvers township area is one which is increasingly becoming important to our Tourist Industry. While many people travel between highways No. 115, No. 35 and No. 7A, and with the increased travel to Devil's Elbow and other ski clubs, there is a decided lack of restaurant

Cars on Ice Races this weekend in Minden

MINDEN — For the next two weekends the Kinsmen Club of Minden will be hosting the cars-on-ice races at their track beside the Community Centre.

On Saturday and Sunday, the Peterborough Motor Sport Club will be the sponsor while on Feb. 23rd and 24th the races will be sponsored jointly by the Kinsmen Club and the PMSC. On this weekend, the Kinsmen Club will hold trophy presentations as well as a party and dance for the drivers and their wives.

Final results have now been tabulated for the Winter Carnival races which were: Saturday, Race No. 1 for class one and two, Lavern Burkhart; Race 2, class 4, Bill LeFevre; Race 3, class 6, 1. John Gilroy, 2. Tom Prentice 3. Bob Atrell. Race 4 class 2, Tony Sharpe; Race 5, class 4, Bill LeFevre; Race 6 for co-drivers, Ken Graves; Race 7, feature — 1

Bill LeFevre, 2. Bob Atrell, 3. Bill Burch, 4. Tom Prentice. Race 8, consolation, 1. Sy Langarap, 2. Ken Fielding.

On Sunday, race 1, Bill LeFevre; race 2, Ken Graves; race 3, Bill Burch; race 4, studded Bill LeFevre; race 5, Bill Burch; race 6, Walt Smith; race 7, Ken Graves; race 8, feature, Walt Smith; race 9, consolation Gerry Haley.

Speaking with Kinsmen and driver for the last three seasons Tom Prentice, the Express learned that a very beautiful trophy has been donated for the driver accumulating the most points for racing here in Minden. At the present time Bill LeFevre is the leader but there are still four days of racing left. Some tough competition is coming Bill's way from the likes of Bill Burch, Ken Graves and Gerry Haley.

Commercial vehicles to get new license plates and stickers

Toronto — Starting Feb. 1, commercial vehicle operators will get a new kind of licence plate and a windshield sticker when they renew their licence plates and permits, Minister of Transportation and Communications James Snow said today.

"Like passenger car licence plates, these new commercial plates will stay unchanged each year," said Snow "but at each renewal period a permit validation sticker and a windshield sticker will be issued."

The windshield sticker must be affixed to the lower left-hand corner of the commercial vehicle's windshield — and at each renewal the previous sticker should be removed.

Snow urged owners of commercial vehicles registered in 1979 or previous years who are applying for 1980 registration to be sure to fill out and bring

facilities for the traveller, in this community. This location will provide an excellent opportunity for an enterprising individual to open his own business. The citizens of Bethany and Manvers would indeed extend the hand of friendship and would welcome this type of personal initiative.

with them the new "Application for Renewal Registration — Commercial Vehicles" form, now available at all MTC licence-issuing offices.

The new form, along with the filled-in application on the back of the existing registration form, and proof of insurance, will be required when applying for 1980 registration.

The new "perennial" plates will no longer denote the validation period of registration.

There will be no change to the present annual and quarterly fee schedule.

After the initial plates issue, the new system should help cut down the time required to renew a permit at licence-issuing offices," said Snow, "because no permit need be typed or plate issued. It becomes a simple routine of issuing a windshield sticker and validating the permit with a sticker — just as car drivers' permits are validated now."

New Horizons grants issued

Bill Scott MP is pleased to announce that New Horizons grants have been issued to four senior citizens groups in the constituency.

They are, Fenelon Falls Action Plus with \$3673; Cambray's Twilights with \$2175; Bobcaygeon's 282, for \$9695 and Meals on Wheels, Bobcaygeon a grant for \$4401.

M.N.R.

FUELWOOD SALES ANNOUNCEMENT

Beginning February 20, 1980, the Ministry of Natural Resources will be selling all remaining fuelwood at their Monmouth Township site, just East of Tory Hill, by individual skidways or piles.

Each pile will be scaled separately and identified by number for sale to the general public, at a price of \$24.00 per full cord. The average pile would contain approximately 10 full cords.

Each individual purchaser will assume responsibility for the security of his wood and the access to it.

Any interested parties should contact either the Minden office at 286-1521 or the Gooderham office at 447-2151 anytime between 8 a.m. and 5 p.m., Monday to Friday.

RE-ELECT

BILL SCOTT

The Facts About Oil Pricing

- ☆ The non-existent Trudeau energy policy over the past 11 years has done nothing to promote energy self-sufficiency in Canada. In fact, it has had the opposite effect.
- ☆ Trudeau won't say how much he will raise oil prices if he gets the chance, but we know that gasoline prices rose by 14 cents a year in his last four years in office.
- The federal subsidy on imported oil for the Maritime provinces is now two-and-a-half billion dollars per year. This will rise to five billions per year unless something is done to reduce our dependency on foreign energy sources.

Under A PC Government

- ☆ Farmers will receive a ten-cents-per-gallon rebate on fuel purchased for farm use.
- ☆ Homeowners will be exempt from excise taxes on oil purchased for home heating.
- ☆ All persons with incomes under \$21,000 per year will be eligible for an energy tax credit of \$80 per adult and \$30 per child, per year, whether you pay taxes or not.

VICTORIA — HALIBURTON

The following article appears in a soon to be released promotion of Carnarvon and area. The promotional piece is in newspaper form but is intended to be humorous as well as informative of businesses and services in our area.

Midtown and Suburbs unite to put Carnarvon on map

The initial move to establish Metropolitan Carnarvon as the hub of a sprawling recreational trading area was made recently at a mass meeting of Metro Merchants and tradesmen held at the Foggy Bottom in Carnarvon.

Twenty-five activists representing the nearly 50 businesses now in Metro Carnarvon met informally to form the Greater Metropolitan Carnarvon Board of Trade and Wine Tasting Society. During the meeting the group laid down the borders of Metro Carnarvon (see map) and proclaimed it the centre of the Golden Recreation Ellipse the area deemed to have the most potential for immediate growth in the entire province.

Fringes of the Golden Ellipse include Huntsville, Bancroft, Gravenhurst-Bracebridge, Orillia, Peterboro, and Lindsay. Much serious thought was given to establishing the areas' elliptical limits despite the heavy agenda facing the newly established Board of Trade.

"It took the Board seven whole minutes to arrive at its conclusion in this matter" said (temporary) chairperson Ali Hogg during an exclusive interview with *The Carnarvon Cliffhanger*. "Since there are 12 Board members, that means that one point four (1.4) person hours were devoted to the decision," Ms. Hogg continued. "That's not bad at all considering that we're a brand new organization. We

knew that most other groups in the area would take much longer than we did to come up with the same decision but our board realizes that with more experience we will be able to come up with the same conclusion in a much longer time.

In the meantime, *The Carnarvon Cliffhanger* learned that the new board plans to achieve a few previously thought unattainable goals before the anticipated atrophy sets in.

The Board recognized that most local and seasonal residents are not aware of the range of services available in Metropolitan Carnarvon and the Board's objective is to mount an advertising and publicity campaign to correct this problem.

The group at the meeting wholeheartedly agreed to aggressively pursue this objective as long as doing so didn't seriously interfere with the wine tasting and party aspects of the association.

A motion to annex the villages of Minden and Haliburton received much consideration, but after a stormy debate, it was resolved to table the motion for a year to give these areas a chance to develop an identity on their own.

Finally, *The Cliffhanger* learned that the Board will soon draw up a constitution designed to ensure that the business meetings don't outnumber the party meetings.

Rodd credits embassy, not Joe Clark with Iran initiative

The three main issues in the 1980 federal election campaign are: crown corporations such as Petro Can, the issue of provincial and federal rights and fair and equitable taxation according to a person's ability to pay.

That is the way Victoria-Haliburton Liberal candidate Ivan Rodd spelled it out for about 50 campaign workers before they started out on a door-to-door blitz of the town of Lindsay last Saturday.

"I want to speak with you before you go out about my involvement in politics as your Liberal candidate and why I believe it is so important for Canada to defeat the Joe Clark non-government," Rodd said, as he proceeded to outline his political thinking.

"For many years, Mr. Rodd went on to say, I stood back and watched the political goings-on in Canada, I grumbled and complained about the same things you did, the high inflation, the high rate of unemployment, high interest rates, this problem that problem and I, as I suspect many people, blamed it on whatever government was involved.

With the election of the Clark minority in May of 1979, I thought, well, maybe a new party in power can be good for Canada and good for the riding. How wrong I was.

I need not harp on the many mistakes and errors made by Joe Clark. You know the legend. You know how we cringed and worried about this country's self respect. Not until Canadian Embassy officials took the initiative in Iran, have we heard one good word in the last six months about Canada in the international scene.

I could probably have accepted Clark's mistakes as part of the learning process of a new government. What I could not accept and what I firmly believe most Canadians will not accept is best shown by dealing with three election issues.

"My friends, I am not a rich man, I'm not a poor man either, nor do I particularly like paying income taxes, I worked hard for what I have. But I'll tell you this, Canada has been good to me and my family and I don't begrudge paying a little bit more to help those that have been less fortunate. That is the Canadian way."

"Joe Clark would make greed and local self interest the way for Canada. Fellow Liberals he is wrong. Help me defeat him."

Advertising... points the way to better buys.

Scott tells supporters Grits ad could tend to mislead

Bill Scott told an audience in Bancroft Tuesday night of last week that the local Liberal candidates election ads contain inaccuracies that could tend to be misleading.

Progressive Conservative candidate in Victoria-Haliburton and incumbent member of Parliament for the riding, Scott was in Bancroft to speak on behalf of Bill Vankougnet, PC candidate in the neighboring riding of Hastings-Frontenac.

"In his ads the Liberal candidate proposes an increase in the Canada Pension Plan supplement to \$35 per month," Scott said, "and there just isn't any way such a thing as a supplement to the pension plan could happen. If anyone believes that there is such a thing I invite you to call an office of the CCP.

Scott said that the ad was probably a reference gimmick of promising pension increases to the elderly pensioners.

"Our own party was in the process of examining all aspects of old age security and health insurance plans across the country," Scott said, with a view to up-dating and up-grading social legislation.

"We started by getting legislation through Parliament to allow people age 60 through age 64 to continue drawing the spouses allowance upon the death of an older spouse," Scott added.

"Under the old Liberal legislation, the younger spouse lost the allowance upon the death of the older spouse, even if the person had no other source of income, Scott said."

"That was cruel and unjust, and if the Liberals were so keen on assisting the elderly and the disadvantaged, why didn't they correct that inequity in their own legislation instead of waiting for the PC's to correct it, he said.

Port Carling and juveniles play to 5-5 overtime tie in opener

MINDEN — Friday evening at the Community Centre, the Dollo IGA Juveniles came up against a very tough Port Carling — Cleveland House Juveniles in their first game of the best three out of five All-Ontario quarter final series and managed to tie 5-5 on Roger Hick's shorthanded goal at 13:48 of the final period.

Minden had jumped quickly into a 3-0 lead by the 11:11 mark but a goal by Port Carling with two men in the penalty box cut the margin to two goals and they gathered their momentum from there.

At 1:42 of the opening period Greg Carpenter cashed a three way passing play with Garry Harrison and Dave Shapiera to put Minden up 1-0. Then at 9:49 Harrison got the first of his two goals on the night, when he broke down the centre, passed to Dennis Stribbling who got the puck to Pete Johnson back to Harrison for a 2-0 lead. Then came the 3-0 tally from the stick of Kim Hamilton from Tim Davies and Hicks. But at 13:12 Port's Ray Reugers broke away while shorthanded and scored one of the best goals of the year.

In the second period, Port scored to make it 3-2 after just 57 seconds, again from the stick of Reugers. However, at 4:48 of the period, Harrison restored Minden's two goal lead when setup from behind the net by Stribbling. Shapiera also drew an assist. The period ended 4-2.

In the third Port Carling scored three straight goals to take the lead, Gerry Wines at 2:56, Allan Brown at 4:50 and Andy Myers at 11:54. At this point in the game it looked like Port Carling was going to take a one game lead, but it wasn't to be. At 13:48 Corey Walker broken up the ice killing a Minden penalty, passed to Davies who dropped the puck to Hicks at the point and he blasted the tying goal into the top corner of the net.

The teams then played a ten minute overtime period and Minden completely outplayed the Carling team but couldn't score. Shawn Silvers, Shapiera

Hamilton kicks out another

On Friday evening at the Community Centre in Minden, the avid Minden and Port Carling fans were treated to some of the finest hockey of the year. The two juvenile teams opened their best of five playoff tilt and played to a super 5-5 overtime tie. Stops like the one above by Bailey Hamilton (30) of Minden were the reason the game ended a tie.

and Harrison all had partial breakaways in the period but either shot wide or were stopped cold.

It would be nice to see the Centre full of local fans at the next home game. Dollo's Juveniles have played excellent hockey all year under the coaching of Joe Cox and they deserve all the support in what promises to be a great series with Port Carling.

Minden play-off teams find competition tough, win only 2

MINDEN — After a very successful playoff performance by all Minden minor hockey teams last week, things are much rougher now.

The Atoms were the only winners this week, downing Woodville at the Centre on Saturday 4-1. Dwain Cooper led them to their victory with two goals. Singles went to Scott Nesbitt and John Wells.

The Peewees came through with a 5-5 tie in Sunderland and then were thoroughly trounced by Bobcaygeon on Saturday 8-2. In Sunderland, Paul Allore picked up a pair of goals while Peter Allore, Jeff Howe and John Ballantyne each netted one. At the Centre on the weekend, Glen Hall and Greg Newell scored the only goals against Bobcaygeon.

Let's Go Snowmobiling

Joyce Alley is a young, vivacious woman whose tastes run toward the adventuresome; Nancy Zoet, a happily married mother of three teenagers, is interested in activities which she and her family can enjoy together; and Carlene Stobridge, a sprightly woman of 80, is a person who has discovered that healthy outdoor recreation fun need not be restricted to the young.

What these diverse women share in common with one another, and with millions of other women throughout Canada and the United States, is their enjoyment of snowmobiling—one of the most popular outdoor winter recreations. Indeed, according to a nation-wide government survey conducted for the U.S. Department of the Interior, nearly half of the more than 14 million U.S. snowmobiling enthusiasts are women. This participation rate for women is much higher than other traditional outdoor recreations such as golf, fishing, camping and hiking.

There are a number of reasons for the appeal of snowmobiling among women and people of all age groups. Certainly, the diversity of the sport ranks high on the list. Snowmobiling can be sedate and leisurely on a scenic 5 mph ride along smoothly groomed snowmobile trails; or it can be adventuresome and demanding on a hard-driving snowmobile safari spanning hundreds of miles of mountainous back country.

Ease of operation is another strong influence in its appeal among women. Women who have never thought of themselves as being outdoor types or especially athletic are delighted to discover that they can become

quite proficient as snowmobilers in just one afternoon of riding. The versatile little machines are simple to operate (there's no shifting involved—just brake and accelerator levers). And today's snowmobiles are a far cry from their counterparts of only a decade ago. They're light, very reliable, require minimal maintenance and are extremely easy to handle. They are also very light (94% quieter than 1968 models!). For the busy woman on the go—who may be juggling an outside job, caring for a home and raising a family—the ease with which one can learn this sport seems to be a definite plus.

Finally, the family nature of the sport is a strong appeal to women. An overwhelming 80% of all snowmobilers consider it a family activity in which wife, husband and children participate together. On this subject, Nancy Zoet seems to reflect the feelings of many women:

"I love snowmobiling for the special closeness it has brought to my family. We now share something as a family that is interesting and exciting, and we talk with each other. Snowmobiling gave us the chance to have active winter fun outdoors together and enjoy each other's company as a family as we never could have before."

Any recreation that can foster closer bonds within the often beleaguered family unit certainly has a lot going for it. It's pretty easy to see why snowmobiling is so appealing to women.

For more information, contact the Snowmobile Information Centre of the Ontario Snowmobile Industry Association, P.O. Box 951, Stn. Q., Toronto, Ontario M4T 1L0 or telephone (416) 923-4459.

Midgets win Round Robin, lose opener of league final 4-0

BOBCAYGEON —The Walker Lumber Midgets came up with some fine hockey in their round robin play-off series with Bobcaygeon and Sunderland the last two weeks, but when it came to the first game of the best three out of five league championship series they fell back to earth like a giant redwood.

Last Monday evening in Sunderland the Walker boys continued where they left off on Saturday when they won 12-0 to bounce their hosts 11-1. Ivan Ingram and Dave Lennie each scored twice in this contest while singles went to Rick Beeney, Ron Yake, Harold Porter, Shawn Chapman and Brent Moxam.

They then travelled to Bobcaygeon on Tuesday evening and tied 4-4 to give them the round robin series with seven of a possible eight pts. Kevin Sha-

In other playoff action, Walker's Lumber midgets were blanked 4-0 in their opener of a five game set with Bobcaygeon; the Tri County bantams were drubbed 7-1 by Fenelon, Danny Hayes averting a shut out; the Minden Tykes were shutout 2-0 by Lakefield and the Minden bantams went down 7-1 to Bobcaygeon. Scott Hamilton spoiling Caygeon's shutout bid. In Bobcaygeon early in the week, Minden went down 5-2 with Eldon Bull and Tim Woods scoring.

The Atoms again came up big in Oakwood in their round robin series, edging their hosts 3-2 on the two goal performance of Tom McLeod and one by Scot Nesbitt.

piera scored two, with one each by Ingram and Porter.

With the momentum of the round robin series, Minden was picked unanimously to win the three of five series with Caygeon, especially after a five win, one lose and a tie record over the season. But, unfortunately no one told the Bobcaygeon boys to lay down on the job and they blanked the Midgets 4-0.

The next two games in this series will now be played in Minden on Tues., Feb. 12 and Thursday, Feb. 14 at 7 pm.

There are four Ontario Tax Credits ready to help you at tax time.

Do you qualify?

If you are an Ontario resident, you may be eligible for Ontario Tax Credits even if you have no taxable income. However, you must complete the mauve Ontario Tax Credit form and mail it together with your federal income tax return. The Ontario form is included in the federal income tax schedules.

Property Tax Credit

This credit is designed to reduce the burden of municipal and school taxes.

If you are a homeowner, roomer or tenant with a low or moderate income, you are eligible for this credit.

Sales Tax Credit

This credit, based on your personal exemptions, is available

to you if you are not claimed as a dependant on another taxfiler's return.

If you are a senior citizen, the "age exemption" will increase the amount of your Sales Tax Credit.

Pensioner Tax Credit

A credit of \$110 is available to every couple or individual 65 years or older.

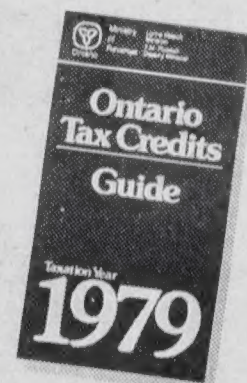

Political Contribution Tax Credit

Did you make a political contribution to a provincial party or constituency association last year? If so, then you may be eligible for this tax credit.

For complete details or copies of the Ontario Tax Credit

booklet, please call our multilingual Information Centre, free of charge:

ELECT IVAN RODD

VICTORIA-HALIBURTON-GEORGINA

THE 1980's WILL DEMAND ENERGETIC, DEDICATED AND STRONG REPRESENTATION. IVAN RODD WILL DEVOTE HIS TIME AND ENERGY TO THE SERVICE OF THIS RIDING AND OUR NATION.

LIBERAL POLICY: Seniors gain \$35.00 per month

- Senior citizens will receive an increase in the Old Age Security Guaranteed Income Supplement payments by \$35.00 a month per household. This increase will be available to all those Pensioners now eligible for the Guaranteed Income Supplement.
- Income assistance is important to Pensioners in this riding and throughout Canada. Changes will be made to reflect the need!
- Energy supplies are vital to Canadians. A liberal government will set a Made-In-Canada energy pricing policy to secure adequate supplies of energy at reasonable prices.

A VOTE FOR RODD WILL MAKE A DIFFERENCE.

STANHOPE NOTES

by A. F. Stevenson

The February 6th meeting of Township Council was one of the shortest in a long time, due in part to the fact that there were no agenda items and also because there were no reports from the various committees.

Considerable time and discussion was given to the matter of the Old Hawk Lake Road which, as is generally known, is a matter of contention between the County roads committee and the Township of Stanhope. Whether or not the Township will submit to the County demand that the road be taken over is not yet clear, but a letter is going out to property owners along the affected part of the road, to outline a new proposal for closing or dead-ending it.

Response to this approach will no doubt be of assistance to Council on its decision on the matter. What is not clear to some people is why, since the road is at present a county road, should the township be saddled with the task of closing the road and perhaps with the need for assuming expenditure for repairs where needed, to say nothing of all the problems associated with the closing.

It would seem to make sense for the township to refuse to take over the road until it is free of all the encumbrances associated with it.

Council also received a presentation from the Acid Rain committee outlining some information re: liming of lakes where this has been necessary, and also providing Council with the most recent test results made by Ontario Ministry of Environment re: the condition of Stanhope lakes. These tests made during 1978 and 1979 indicate that the township lakes are in satisfactory condition, but there was also reason to believe that the buffering ability of a few lakes is low, thus indicating susceptibility to becoming adversely acidified in a few years.

Another matter brought to the attention of council was the report of the Atomic Energy Research Committee dealing with the study of Nuclear Waste disposal plans. While the study is in its early stages, the fact that Haliburton County is among those places being studied as possible suitable areas for such disposal sites is believed to be reason to be alert to this activity. Because of this wider area of concern the name of the committee has been changed to the Environment Committee.

Reeve Jim Harrison expressed a wish to keep the public informed on these concerns and directed the Environment Committee to plan a public meeting at a time when seasonal and permanent residents would have an opportunity to attend.

Stanhope Airport Committee are moving briskly ahead with plans for a St. Patrick's dance to be held March 15th. The music and the price will be right and the committee are planning an enjoyable affair. Tickets can be obtained from Stan Moore or Derek Rolfe or any member of the Airport Committee.

Mainstream Canada

Dilemma

By: Roger Worth

For most consumers, financing is a relatively painless task. With banks and financial institutions falling over each other to pick up customers, the availability of consumer credit for everything from new cars to winter vacations in the sunny South seems unlimited (within reason).

It's true, interest rates can be set at 18% or higher, but the money is available for those willing to buy now, pay later.

Yet while Canadians can seemingly get as much money as they need to finance a neat,

Roger Worth is Director,
Public Affairs,
Canadian Federation of
Independent Business.

new, \$10,000 van, a shortage of financing has suddenly become the Number One problem for the people operating the country's small and medium-sized businesses.

Something has gone awry. Even bankers are advising smaller businesses to postpone expansion plans. Credit, the bankers say, is too expensive.

Consumers, though, are besieged with inviting bank advertising that outlines the wonder of winter vacation loans.

The pity is that the world has been turned topsy-turvy.

The small and medium-sized firms that are creating more than 50% of the new jobs in the country can't get loans. Consumers off on a spending spree have no difficulty at all.

The impact of this simple fact has shown up in results of a Canadian Federation of Independent Business survey. In the third quarter of 1979, the organization conducted 11,000 in-depth interviews with members asking the question: "What is the single most important problem facing your business today?"

About 18.5% claimed lack of adequate financing headed the list. In the previous quarter, problems with government regulations and paperburden were most important, followed by inflation and financing.

Even a layman can see what's happening. Banks are restricting the availability of credit to smaller firms, forcing them to tighten their belts and forget about expansion plans, even if there is a ready market for the product or service.

High interest rates and a weak Canadian economy, it seems, have convinced the financial institutions they should reduce their risks.

Perhaps it's time for the bankers to start thinking about restricting consumer credit, at the same time loosening the reins on business loans.

Stanhope Fire Dept. concludes 40 hour training program

Mr. J. Harrison, Reeve, and Members of the Council, Corporation of the Township of Stanhope.

Dear Sirs: Please be advised that the office of the Fire Marshal has completed a forty (40) hour basic training program for the members of your re-organized Fire Department, as agreed. We have also concluded our six (6) month monitoring program of your Department and feel that the re-organization has been successful. I feel certain that your Fire Department is capable of providing adequate fire protection for the residents of your Municipality, and that it will continue to be a progressive Department.

I would like to take this opportunity to thank the members of Council for their co-operation with this Office, in making this success possible. All recommendations submitted in my report of July 16th, 1979, have been implemented with the exception of sufficient officers being appointed.

In this regard, Fire Chief G. Wilson has suggested that additional time be allowed to enable him to make a better evaluation of the Officer candidates' qualifications. I agree with this thinking. However, every effort should be made to appoint suitable people as soon as possible.

Please feel free to contact our District Adviser or the undersigned if we can be of any further assistance. Yours very truly, (signed)
C. Norman Vine, Assistant Chief,
Fire Advisory Services.

Province to expand channel 9's monitoring service

Toronto — Minister of Transportation and Communications James Snow and Solicitor General Roy McMurtry today said police monitoring of emergency channel nine on the citizen's band radio will be extended to all provincial freeways.

"Experimental projects on Highway 401 and the Queen Elizabeth way have demonstrated motorists can be assisted by the emergency service in the event of accidents, mechanical breakdown or during poor weather conditions," said Snow.

"These projects also proved to have two-way benefits," said McMurtry, "because motorists have also been able to alert police to accident situations dangerous road conditions and pinpoint other emergencies."

"Citizen's band radios will be installed in approximately 40 detachments within receiving range of our freeway system and many of them will be monitored on a 24-hour-a-day basis," added McMurtry.

Snow indicated that "this extended program will not only improve safety on our major freeways, but there should be considerable spin-off for motorists using highways adjacent to the freeway system."

Eventually we hope to be able to offer this unique service on all major routes in Ontario."

Jury finds death is result of post-operative problems

An inquest jury of two women and three men empanelled to enquire into the death of Robert Colinson 35, of Kirkfield at the Ross Memorial Hospital in Lindsay on Nov. 9th, 1979, after three days of testimony, found his death was due to post operative complications and irreversible shutdown and shock following a second operation on Nov. 8th.

The report noted the patient's gall bladder was removed on Oct. 23 and post operative complications of jaundice and bile drainage followed. The jury reported the patient was tested at the Peterborough Civic Hospital by ultra sound, a liver scan and chest x-ray.

It also reported the removal of the gall bladder was performed following complaints of indigestion and abdominal pain.

The jury made a total of six recommendations all of them calling for closer observations of patient and more consultation between family doctors, surgeons and anaesthetist.

Also included in the cause of death was listed the second operation on Nov. 8th to repair the bile duct, surgical complications leading to the length of time (5½ hours), and the onset of shock, a general deterioration and irreversible shutdown which led to death in the intensive care unit.

Hartwick scores six for Home Willis nets four for Rockcliffe

Minden — The final games of the regular season in the men's recreational hockey league were played on Monday evening at the Center and Home Hardware held on to defeat the Rockcliffe Hotel to end the season undefeated. Home compiled a record of 12 wins, scoring 120 goals and giving up just 43. Dave Hartwick led the team all year and had his finest evening of the campaign on Monday, scoring six goals and setting up a seventh. Linemate John Barkwell scored once and added five assists. The other goal was scored by Paul Cummings.

Rockcliffe got goals from Shane McKelvey, Wayne Hutchinson and Dean Hewitt.

The first game of the evening saw Dave Willis come through with four big goals as he led his Floyd Hall Insurance mates to a 11-1 drubbing of Hartwick Construction. Steve Harper pitched in with a pair of goals and added four assists. Newcomer to the team this week, Steve Bowcott also scored twice while singles went to Neil Burk, Tom Lee and Wayne Tascona. Harris Steele adverted the shutout for the Construction team.

The league scoring race went right down to the wire in the first year of the Recreational league and Larry Sawyer copped the title with 25 goals and 29 assists for 54 points. Dave Hartwick with his seven point evening on Monday moved to second spot with 26 goals and 25 assists for 51 points. John Barkwell

Minden Curling Club Ladies win 1980 Ladies Tankard

Bobcaygeon — On February 5th and 6th two teams of ladies from the Minden Curling Club left for Bobcaygeon to contest the 1980 Ladies Tankard.

Eight Clubs, two teams from each Club participated, including Lindsay, Sutton, Beaverton, Fenelon Falls, Woodville, Haliburton, Minden and the host Club.

The championship was arrived at by aggregate points. Example, the first games Minden played were against Fenelon Falls. Both Penny Obee's rink and Dale Austin's rink won advancing them to the second round against Sutton. Other first round winners are;

and Rick Hartwick shared the goal scoring title, netting 29 each. Randy Ellison captured the goaltending honors in the league with a 4.56 goals against average in 16 games.

The league playoffs get underway this coming Monday at 8 p.m. with Home Hardware meeting Floyd Hall Insurance and then at 9:30 p.m. Hartwick Construction will tangle with Rockcliffe Hotel.

Sutton over Haliburton, Beaverton over Woodville and Bobcaygeon over Lindsay.

In the second round Minden downed Sutton, Beaverton edged Bobcaygeon. Then in the finals, Obee thrashed Sylvia Farrell's Beaverton rink 13-6 and Austin downed Beaverton's Peggy Gray 9-7 to advance to the District 4 finals. The finals will be played in Lindsay on March 3rd. There will be four Districts contesting the finals for the right to advance to the Provincial finals in Brampton on Mar. 21, 22 and 23rd.

Schoolboys Dist. 4 laurels go to Kingston, Smith Falls oust Hal

Peterborough — The Peterborough Golf & Country Club was the scene of this year's Schoolboy District 4 Inter-divisions Curling finals. The Bonspiel was played Sunday, February 10 with for schools participating, Kingston Collegiate Vocational Institute, Ottawa's Sir Wilfred Laurier Secondary, Smith Falls Senior Secondary and Haliburton Highlands Senior Secondary school.

Kingston won the District finals on the strength of two straight victories, first trouncing Smith Falls 7-3 and in the second round downing Haliburton 9-5.

Smith Falls also advanced with Kingston beating Ottawa 10-6 and drawing to the button in the final end of their ten-end game with Haliburton to win 5-3.

Haliburton opened the finals with a fine 7-5 victory over Ottawa, before losing their next 2 matches.

The Haliburton rink skipped by Doug Cross, should be congratulated on their splendid season. With two years of illigibility left, and with the experience they gathered at this year's Districts, they should go all the way before they leave H.H.S.S. The remainder of this fine rink has Paul Madden at Vice, Sean Harrison at second and Shane Blakey at the lead position.

Valentine's Day — The Legend Lives On

Even after centuries, the tradition of Valentine's Day continues to hold special significance for people in love. In fact, next to Christmas, it is the most romantic time of year and the most popular time for card and gift exchanges.

No one knows just exactly when the Valentine's custom was first born, but the various legends that have passed on through the ages reveal three theories. One includes a superstition that birds and rabbits began their mating season on February 14th as a harbinger of spring. Another accepted version traces the custom back to the Roman Lupercalia, a feast of fertility, celebrated in

February in honour of the pastoral god Lupercus. During this feast, youths drew names of young girls from a box to be their companions for the year, which at that time started in March.

The most popular theory, however, goes back to 270 A.D. when a Christian named Valentine was condemned to die on February 14. While in prison, he restored the sight of the jailer's daughter with whom he had fallen in love. On the evening before he died, he sent a poem to his loved one, "From your Valentine."

Eventually these stories evolved into one and traces of romantic fancies and customs began to show up in

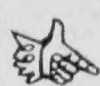

English literature. Valentine greetings or "poems of love" were first sent in the mid-1500's, but it was not until much later that the practice of exchanging gifts, especially expensive jewelry, became quite popular. Samuel Pepys, the famed English diarist reported some aspects of this burgeoning tradition in his daily accounts and was in fact an observer of the custom himself. On one particular Valentine's Day, he presented his wife with "a Turkey stone set with diamonds."

The exchange of gifts and Valentine love greetings continues on today. And although most may not be as

elaborate as before, a few lucky ladies are still fortunate to receive jewellery—the most popular being diamonds.

The simple, pure beauty of a diamond, whether in earrings, a bracelet or solitaire ring, captures the mood of the day forever. Not only are they fashionable and symbolic of the occasion, but the use of smaller stones in delicate settings have made them an affordable choice.

When you remember the love of your life on Valentine's Day, make it a special day and buy her a diamond—she'll be glad you did.

Earth, like the planet Jupiter, sporadically emits low-frequency radio signals which still mystify scientists.

New travel amendments adopted by province

Ontario consumers may see a general upgrading of the travel industry thanks to new travel regulations adopted recently by the Ministry of Consumer and Commercial Relations.

"We've worked closely with representatives of the Ontario Travel Industry Conference (OTIC) since September 1978 to develop these regulations," said provincial Travel Registrar Doug Caven. "We feel the regulations are fair — they benefit the travelling public without imposing unnecessary hardships on individual travel agents."

APPLICATIONS WANTED

Part time Custodian for the Haliburton Highlands Secondary School, Haliburton, Ontario.

Duties to commence on April 1, 1980.

Salary — \$5,896.80 per annum until July 1, 1980, then \$6,104.80 per annum.

Four hours per day on an evening shift — September through June.

For the month of July, there will be no work.

For the month of August, 8 hours per day — 8 a.m. to 5 p.m., five days per week.

Applicable holiday allowance will be paid in July each year.

Please send applications no later than March 8, 1980 to:

Mr. J. Douglas Hodgson, Director-Secretary
Haliburton County Board of Education
P.O. Box 507, Haliburton, Ontario K0M 1S0

Please mark "application" on envelope.
